

LAFAYETTE COLLEGE

SCHEDULE OF CLASSES FALL 2017

REGISTRATION FOR FALL 2017

Directions for registering online are being emailed to students. A printed copy can also be obtained at the Registrar's Office at 215 Markle Hall. As in previous semesters, students can register in person by returning a completed registration worksheet to Markle Hall on the class registration days listed below.

CLASS OF 2018

April 3 - 7AM Registration online via Banner Self-Service opens
April 3 - 9AM Students may register in person at 215 Markle Hall

CLASS OF 2019

April 5 - 7AM Registration online via Banner Self-Service opens
April 5 - 9AM Students may register in person at 215 Markle Hall

CLASS OF 2020

April 7 - 7AM Registration online via Banner Self-Service opens
April 7 - 9AM Students may register in person at 215 Markle Hall

Students are responsible for meeting class registration procedures and deadlines. Students who register after May 5 will be subject to a \$50 late fee.

COMMON COURSE OF STUDY REQUIREMENTS. Specific course attributes used to complete Common Course of Study (CCS) requirements can be found online using either the Registration/Course Look-up area in Banner Self Service or the Still Needed links in your DegreeWorks audit.

FINAL REGISTRATION. The payment due date for fall 2017 is expected to be in June/July 2017. Official Course Schedules will be emailed to all students on or about August 23, 2017. Schedules will be released only if all fees and charges are paid. Students with unpaid fees, charges, etc., must make satisfactory financial arrangements with the Controller's Office in order to receive their class schedule.

FALL CLASSES WILL BEGIN ON AUGUST 28, 2017. Students who fail to register for the fall 2017 semester and who do not report to College within the first two weeks by September 8, 2017 will be regarded as resigned and must apply to the Dean of the College if they wish to return.

WAIT-LIST, DROP/ADD. Wait-listed courses will be recorded as WW or WL on the schedule. Your adviser and instructor or department head must approve acceptance for wait-listed courses by drop/add procedure. Students may drop/add following the registration period only by adviser and instructor approval up until the two-week deadline of September 8, 2017. Wait-listing yourself in multiple sections of the same course does not increase your chance of being accepted into the course. You should only wait-list yourself for a section that fits your schedule.

ADDRESS CHANGES. It is the student's responsibility to keep the Registrar's Office informed of permanent home address and phone numbers. The Registrar must receive address changes in writing.

PRIVACY INFORMATION. Each student has the right to limit the access of off-campus parties, excluding government agencies in certain situations, to information that would normally be released in the College Telephone and E-mail Directory or athletic programs. Students who wish to take advantage of this right may do so by making the request in the Registrar's Office.

Notation of Rights under FERPA-The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are: (1) The right to inspect and review the student's education records. (2)The right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. (3)The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. (4)The right to file with the U.S. Department of Education a complaint concerning alleged failures by Lafayette College to comply with the requirements of FERPA. (5)The right to obtain a copy of Lafayette College's student records policy. You can obtain a copy of the policy from the Registrar's Office.

VOTER REGISTRATION INFORMATION. Students are encouraged to register to vote. Information concerning applications and procedures for all states are available via the Registrar's Office home page at <http://registrar.lafayette.edu/additional-resources/voter-registration>

REGISTRATION PROCEDURES TO BE USED BY ALL CLASSES

1. Make an appointment with your adviser to review course programs and to seek his or her approval of course registration selections. If registering online, you will need to obtain your alternate/registration PIN number from your faculty adviser. If registering in person, the fall 2017 registration worksheet must be approved and signed by the faculty adviser and returned within the designated times for your class. Forged signatures will subject student to disciplinary action. In such cases, registration will be cancelled.

2. Select a normal course load of four courses exclusive of Military Science and 0.25/0.50 credit courses. Be sure to avoid conflicts. In case of conflicts, required major courses will take preference in scheduling. Be sure to select at least one or two alternate courses in case a preferred course is closed.
3. Register for courses by using the complete CRN number as listed on the course and hour schedule, including when needed, lectures and laboratories/quizzes.

Original preferred sections are not final and will be subject to change within constraints of optimal enrollment balance, laboratory space and to accommodate the usual departmental changes in section additions or cancellations. Schedules also may have to be altered to resolve conflicts or use of alternate courses to replace closed options.

If participating in fall sports, efforts will be made to minimize late afternoon, evening scheduling.

Closed courses. Occasionally, it may be necessary to close a course to maintain optimal enrollment limits set by departments. In such cases, courses are normally filled by class seniority on a first-come, first-served basis. However, in certain courses an assigned number of spaces are reserved for each class. If a course is closed, first consider one of your alternate courses. If you wish to be added to the course wait-list, follow the online registration procedures for wait-listing or if registering in-person, inform the clerk who will assist you. If space is available at the start of the semester you must register by drop/add procedure.

Special prerequisites. Students should carefully check course prerequisites as stated in the catalog. Refer to Course and Hour Schedule for courses that designate consent by instructor or department head and require the signature of the appropriate person who should sign registration worksheet under course authorization column.

Students who wish to be considered for part-time registration status must submit petition to Registrar's Office by August 1, 2017.

OFF-CAMPUS STUDY ABROAD

Students who intend to study abroad next semester or enroll in Lafayette affiliated off-campus programs in the U.S. should return fall 2017 registration worksheet to Registrar's Office with an explanation of specific study program. For all off-campus study, Academic Progress Committee petitions with prior course approval must be filed with the Registrar.

PASS/FAIL - AUDIT OPTIONS

Eligibility - Juniors and Seniors in good standing whose cumulative GPA is 2.00 or higher may, in each semester, take one course on a Pass/Fail basis. A Pass grade (A through D-) does not affect the student

GPA, but an "F" grade does count in the GPA. (See the Lafayette College Catalog online for details and restrictions.)

Procedure - Students must seek approval of the Academic Progress Committee by the petition procedure to take a course for P/F credit. The petition must be pre-approved by major adviser with reasons clearly stated and be submitted no later than the end of the two week drop/add period.

Audit - An audit must be declared no later than the end of the two-week drop/add period. Permission must be granted by the Academic Progress Committee through the petition procedure and with the approval of the instructor and the academic adviser or the head of the department in which the course is offered. No credit will be granted, but if audit conditions are met the course will be appended to the permanent record.

CROSS REGISTRATION

Information on LVAIC schedules and calendar dates are available in the Registrar's Office. A full-time Lafayette day student may cross register for a course suitable to Lafayette degree programs, which cannot be scheduled at Lafayette. Courses are available at any one of the other member institutions of the Lehigh Valley Association of Independent Colleges (LVAIC), Cedar Crest College, DeSales University, Lehigh University, Moravian College and Muhlenberg College, provided the student has approval of faculty adviser, the Lafayette Registrar, and the appropriate persons at the host institution, and provided such course does not produce an overload. Grades will be accepted from the LVAIC institutions. Credits taken through cross registration will be accepted toward Lafayette residency requirements.

CALENDAR DATES FOR 2017 FALL TERM & 2018 INTERIM SESSION.

Aug 1, 2017	Deadline for graduating seniors to petition for part-time registration status
Aug 28, 2017	Classes begin
Sept 8, 2017	Deadline for adding & dropping courses, conversion to pass/fail, audit declaration
Oct 9-10, 2017	Fall Break
Oct 20, 2017	Mid-term grades due
Nov 6-17, 2017	Preregistration for spring 2017 semester
Nov 14, 2017	Last day to withdraw from classes without penalty
Dec 8, 2017	Last day of classes
Dec 12-18, 2017	Final exam period
Dec 21, 2017	Final grades due at 12 Noon
Jan 2-19, 2018	Interim session

COURSE LOAD

For A.B. and B.S. Science students, the normal course load is three or four courses, for B.S. Engineering students between three and five courses. Additional courses constitute an overload and will not be accepted during the registration period. Students may seek approval to register for overload courses on a space available basis after the initial registration period only by approval of the Academic Progress Committee through the petition procedure. Previous academic history is a factor in reviewing overload requests.

Requests may be submitted after April 10, but are normally not reviewed until after final grades are published. Overload petitions will not be accepted with original registration.

COURSE NUMBERS

100 Level Introductory or fundamental courses: usually first course in department open to first-year students.

200 Level Intermediate level courses which are normally open to first and second year students following the first level sequence and may have prerequisites: sophomore engineering courses normally not open to first-year students; courses open to students who have completed one year of college work or equivalent in the subject.

300 Level Advanced-level courses which have prerequisites: normally open to juniors and seniors, Internships, Independent Study and Special Topics open only by permission of departmental chairman.

400 Level Senior level or courses that have 300-level courses as prerequisites, thesis courses open only to honors candidates.

NOTE: Class availability, times and room assignments are subject to change. Corrections and updates to the course & hour listing can be found on the Registrar's Office home page at registrar.lafayette.edu

Course hours are listed in military time, i.e. 1300 = 1PM, 1400 = 2PM, etc.

2017 FALL COURSE AND HOUR SUPPLEMENT

Listings include information from departments through Mar. 1, 2017

All changes pending faculty approval.

A&S 243-Asian America

In this course, we will explore the diversity of Asian/Pacific groups in the Americas, their trajectories of migration, racialization, and community formation. In addition to focusing on people's everyday lived experiences, we will also discuss multiple approaches to "Asian America" as a topic of scholarship and activism. We will be paying close attention to the ways that Asian American identities are not only about race and ethnicity, but also gender, generation, sexuality, and class. Prerequisite: A&S 102

ECON 401-Seminar in Health Economics

This course provides an overview of health economics, covering the demographic and socio-economic determinants of health and the design of health care systems. Students will apply economic theory to model the demand for health and health care, and the demand for insurance. Students will also study the major players in the U.S. health care system including the government and the pharmaceutical industry. Each student will produce an econometric study of a health economics related question. Prerequisites ECON 251, 252, 253

ECON 402-Economics of Education

This is a Capstone Course in Education that focuses on the Education Sector. The course uses economic theory and methodology to investigate important questions in economics, such as: Why do people choose to invest in education? Why is the government heavily involved in education? What determines school quality and does it matter? In addition we will use econometric tools to analyze and evaluate various topical education policy issues. Prerequisites: ECON 251, 252, & ECON 253 or ECON 365

ECON 403-Advanced Topics in Macroeconomics

This course builds on Intermediate Macroeconomics emphasizing empirical research. First, using mathematical models, we will develop tools to think dynamically about macroeconomic policy issues. Second, we will engage in economic thinking and writing, by asking specific questions and using empirical and statistical methods to investigate and test various models. We will discuss the merits and drawbacks of the various approaches.

Prerequisites: ECON 251, 252, and 253

ECON 404-Big Ideas in Economics

This is a survey course of big ideas in economics-the kind of ideas that transformed the way we understand economics today. Topics include the Fundamental Theorems of Welfare Economics, information asymmetry, the Stolper-Samuelson theorem on the relationship between tariffs and wages, Nash equilibrium and game theory, Keynesian economics, and the Mundell-Fleming Trilemma. For each big idea, we identify the critical assumptions of the models so that we can better understand how/when they are applicable. Prerequisite: ECON 251, ECON 252 and ECON 253

GOVT 242-African American Political Thought

This course explores classic texts, questions, and debates addressed by contemporary African American political theory. We will ask: What are the similarities, differences, and overlaps among varying strains of African American political thought? How do they each deal with core concepts of freedom, identity, citizenship, and community? How do they respond to one another through time? Throughout the course, we will consider our times in light of this history of political thought. Prerequisite: One of the following: GOVT 104, AFS 102, ENG 246, PHIL 102, HIST 119, HIST 261, A&S 214

GOVT 421-American Political Economy

This course examines the political development and function of the U.S. political economy. We will explore how political institutions and policies shaped economic arrangements from the founding to the present, and how economic interests, inequality, and identity influence U.S. politics today. The course will also explore in depth four aspects of U.S. political economy: the rise of finance, the welfare state, business regulation, and organized labor. This seminar will devote considerable attention to original research. Prerequisite: GOVT 101 plus one of the following: GOVT 211, 215, 218, 258, 271, 310, 320, 321, PSTD 251 or permission of the instructor

HIST 120-Introduction to History: History in Pictures

This course is an introduction to the interpretation and analysis of visual sources of history. Visual artifacts will be treated as both objects that make arguments and claims, but also as artifacts that preserve evidence and can be used as data. Famous photographs in the history of documentation, such as Crimean War, "Earth-View," and the Abu-Ghraib photos will be analyzed as images that "made history." We will also study photographs forensically, to ascertain true facts about the past. We will also mine photographs from magazines, newspapers, online collections and websites such as Flickr to analyze groups of images systematically.

HIST 121-Introduction to History: Partition of the Indian Subcontinent

One of the most violent and disruptive events of the 20th century, the Partition of the Indian subcontinent into the nation-states of India and Pakistan in 1947 continues to play a staggering role in the post-colonial histories of both countries. This course will go into the high politics of the Partition, its human costs, and its continued impact on everyday life through oral history. The course will also examine the impact of Partition in literature and cinema.

HIST 238-Global Stimulants: Histories of Coffee, Tea, and Yerba Mate

For more than five hundred years now, the desire for global stimulants has shaped patterns of colonialism, imperialism, labor, and social relations. Adopting a global history approach, this course will center the histories of three stimulating, caffeine-rich beverages-coffee, tea, and yerba mate. Our coursework will include an analysis of relevant secondary scholarship with primary historical source work, and will culminate in student-designed digital collections that feature a global stimulant.

HIST 359-Seminar in Early American History

The Seminar in Early American History is a research seminar focusing on a special topic, "Abolitionist and Civil Rights Movements in Early American History." We will examine the strategies, tactics, and rhetoric used by early American activists who sought to abolish slavery, eliminate racial discrimination in criminal law and process, establish legal protections against racial violence, and obtain fundamental rights for African Americans. Assigned readings early in the semester will provide a broad foundation of knowledge about the topic from the perspectives of social, political, legal, religious, cultural, literary, and media history. The rest of the course will be devoted to researching and writing a substantial research paper. The assignments are designed to help you deepen your knowledge of early American history, learn about the history of movements for social change, improve your ability to read critically and think historically, acquire expertise in analyzing primary sources, and strengthen your research and writing skills.

NEUR 352-Special Topics in Neuroscience: Developmental Neurobiology

Neuronal tissues are particularly sensitive to injury and in many cases, are not able to repair themselves. This course explores the problem of neuronal regeneration through in-class discussions and an analysis of primary research literature. We will investigate invertebrates and amphibians with remarkable regenerative capabilities as well as regeneration of axons and sensory cells in both mammalian and non-mammalian systems. Prerequisite: NEUR 201
PSYC 359
